PROGRAM
ASAE ANNUAL CONFERENCE

LOCATION
ST. LOUIS, MISSOURI

DATE
AUGUST 5-9, 2011

ATTENDEES
3,000

OUR PLAN

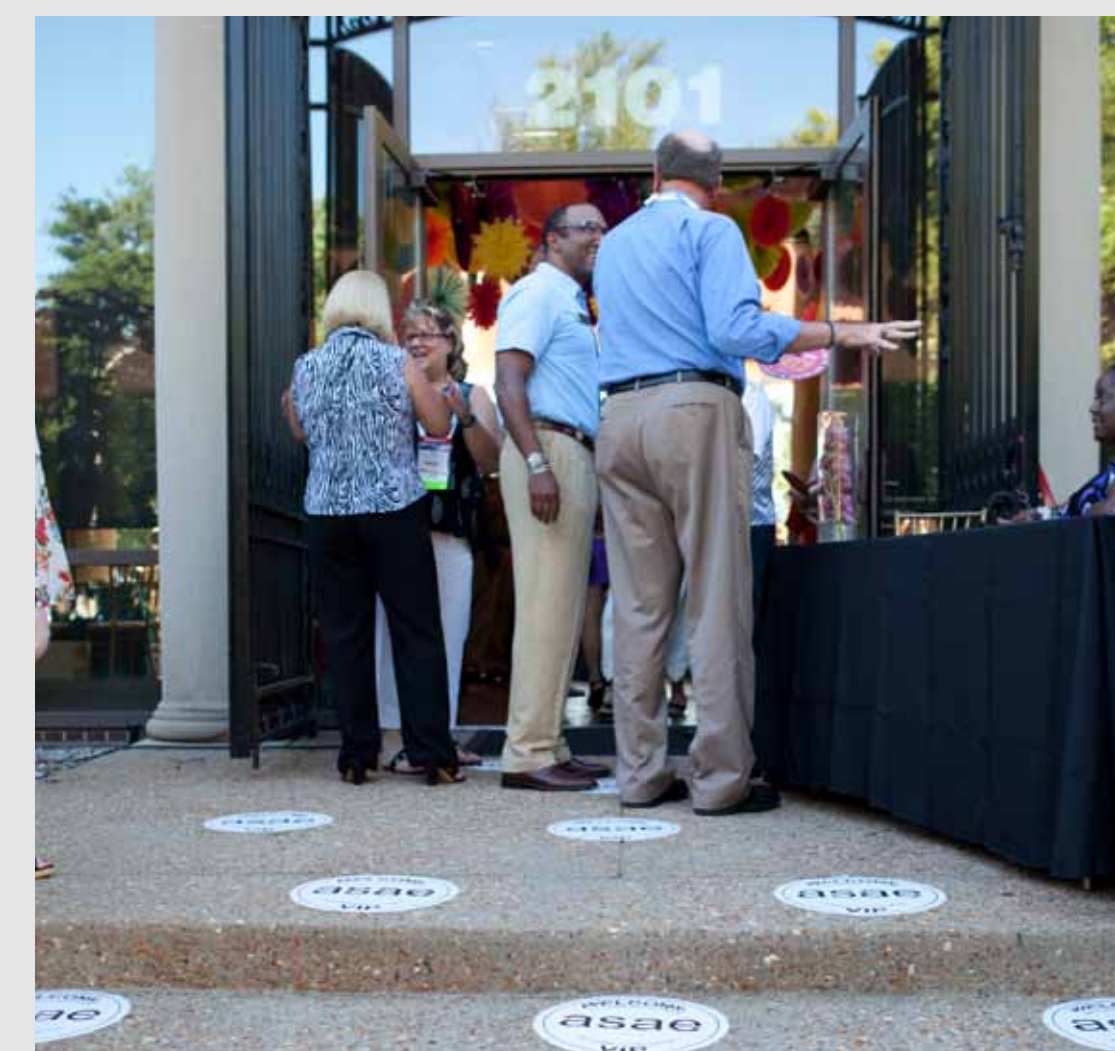

Destination St. Louis, Inc., a DMC Network Company, was chosen as the official transportation provider for the annual conference of the American Society of Association Executives. This five-day program required our team to create a comprehensive transportation program including a five-route shuttle consisting of 12 hotels, special event routes for three off-site events and transportation services for community give back programs, an official golf tournament, VIP transportation services for airport arrivals and departures and coordinate transportation for multiple ICW partner events around the city.

THE CHALLENGE

Every transportation program brings new challenges and opportunities to streamline our processes and this program was no different. With our city and company taking center stage for such a crucial group of planners, we knew we needed to shine. By doing what we do best and showcasing our knowledge and expertise of our city, we were able to deliver on every promise we made our client and helped our city shine.

OUR SOLUTION

"What a great success! Word out on the street is "flawless" and you and your team played a huge part of that. I so enjoyed working with you and your team and the support you gave to us and to St. Louis was second to none. I have already told [Dallas] that they have huge "shoes to fill" after the superb experience we had in St. Louis!"
